Grouping

Groupings allow you to apply groupings to activities or use them to apply restrictions to activities, resources, or topics.

In the example below, we will be showing you how to create groups and add restrictions for a group for accessing an activity.

1. Create and Configure Group

2. **Restrict Access to Resources or Activity using Group**

Go to the course and now you can add restrictions on the activity, "Test quiz" in this example.
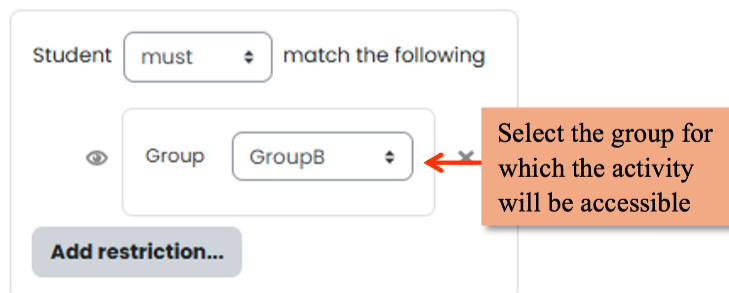

Click on Edit settings.

Under *Restrict access*, click on *Add restriction*.

Select *Group*

Select the group for which the activity will be accessible

Members belonging to group B can only view and access the quiz activity. Below is the view of the Group A member's activity.
